Do You Remember?

TWENTY-FIVE YEARS AGO
ISSUE SEPTEMBER 2nd, 1937

Miss Pearl Stapley has accepted a position as stenographer in the local Hydro office. She replaces Miss Helen Mallory who has resigned to be married.

The Fair Board plans holding a street dance on Friday evening, September 17th. Rus Creighton and his "Canadian Mountaineers" will provide the music. They will be accompanied by Jackie Perkins, the boy singer, and Shirley Smith, tap dancer.

One case of the dreaded infantile paralysis was reported in town this past week. The victim is Allan, three-year-old son of Mr. and Mrs. J. E. Munro, who fell ill on Saturday and was administered serum on Sunday.

Married

Reids — McMullen — On August 28th, by Rev. F. J. Lane, Frankford, Dorothy, eldest daughter of Mr. and Mrs. Geo. McMullen, Holloway, to Mr. Peter Gilbert Reids, also of Holloway.

Warren — Dickson — On August 28th, by Rev. J. L. Lane, at Frankford, Jessie Murray Dickson, daughter of Mr. and Mrs. Gerald Dickson, Frankford, to Mr. George Edwin Warren, of Kingston, son of Mr. and Mrs. James Warren, Sine.

Death

McGowan — In Rawdon Township, Wednesday, September 1st, 1937, Rosa A. Dafoe, wife of George McGowan, in her 67th year. Funeral Friday at 2 p.m. Interment Stirling

Cemetery.

Local and Personal

Clarence West left on Tuesday to attend Business College in Peterboro. Howard Munro, Sudbury, is spending a few days with his parents, Mr. and Mrs. L. Munro.

Mr. and Mrs. R. T. Alexander, of Prescott, spent the past week with Mr. and Mrs. W. L. Anderson.

Mr. and Mrs. Andrew Gordon, of Owen Sound, are guests of Mr. and Mrs. J. B. Belshaw.

Mr. and Mrs. Earle Stroude and family, of Rockville Centre, Long Island, have returned home after visiting the latter's mother, Mrs. A. B. Farney.

Frank Harding left Wednesday for Sudbury, where he expects to spend the winter.

What Others Say

LESSON FOR POLICE

(London Free Press)

The British people know the policeman is on the street to assist them. In return, heaven help the thug who tries to manhandle a bobby while there are law-abiding citizens about.

There has been an alarming number of instances in Ontario in recent years where relations between policemen in smaller centres and municipal councils and public have broken down. Law enforcement and public protection have suffered. It will be beneficial for the Ontario Police Commission to study how this problem is being met in Britain.

JOHN PINCKNEY

John Pinckney, publisher of the Rosetown (Sask.) Eagle was named President of the Canadian Weekly Newspapers Association at the 43rd annual convention held recently at Winnipeg.

Old Indian Burial Ground Discovered

A Toronto archaeologist Walter Kenyon and a team of student assistants have uncovered a 2,000-year-old Indian burial ground a few miles south of Campbellford.

The burial ground was discovered by members of the LeVesconte family, Toronto, who own the nearby farm site.

After unearthing several human bones and a bone dagger in a field the LeVescontes turned their find over to the Royal Ontario Museum in Toronto.

Among items found in the diggings were the remains of 35 bodies, including men, women and children ranging in age from six months to 60 years.

The chests and abdomens of the bodies had been cleaned out by fire with ribs, spines and pelvises showing marks of charring. This is a unique burial technique which has been found nowhere else in the world, said Mr. Kenyon.

Other discoveries were a conch shell gorget or throat armor and salt water clam shells, believed to have come from the Caribbean.

A few pieces of silver were uncovered, marking the first time this precious metal has been authentically identified with the North American Indian.

THE BIBLE TODAY

Monsieur J. Clarence Mombourquette travels in the province of New Brunswick, going from door to door selling Bibles and New Testaments. Last year he called on 8,496 homes and was able to sell only 739 copies of the Scriptures. Of the total sold, 314 were in French, 422 in English and 3 in Italian. Many of these were Roman Catholic editions.

Most of the calls were made in the villages of the French Canadian sections of New Brunswick. "In some of these sections the people were cool and suspicious," writes M. Mombourquette, "but in spite of this copies of the Word were placed in quite a few homes."

The Roman Catholic Church authorities for the most part were helpful in the matter of Scripture distribution. Some Parish Priests stock editions of the Scriptures for the use of their own people.

Monsieur J. C. Mombourquette is a colporteur of the New Brunswick District of the Canadian Bible Society. He travels extensively among the French speaking communities of that province. His text, as he goes about his work, is "Be strong and of a good courage; be not afraid, neither be thou dismayed; for the Lord thy God is with thee whithersoever thou goest." (Joshua 1:9).

Suggested Daily Bible Readings

Sunday — II Samuel 11: 1-17
Monday — II Samuel 12: 1-14
Tuesday — II Kings 2: 1-15
Wednesday — I Chronicles 11: 1-19
Thursday — I Chronicles 16: 7-36

Advertisers Make Newspaper Possible

The advertiser is the man who makes the modern newspaper possible. He provides the major part of the revenue, for without advertising the subscription price of any paper would be prohibitive.

The advertiser wants to sell his goods or services to a large number of clients and therefore must get this message to prospective customers. A much higher percentage of both news and advertising appearing in the hometown journals is actually read than that appearing in a metropolitan newspaper or a national magazine. This fact is the reason why the weekly is such a valuable advertising medium. The readers are customers — one half of all retail buying in Canada is done in small centres served by weeklies.

While on the subject, we would like to refute the old chestnut that advertisers dictate a paper's policy. The advertiser wants his message read,

and that means a large number of subscribers who have a fair amount of faith in the paper. Such a circulation is possible, over a period of years, only by a paper with an independent policy. It would therefore be in the advertiser's own interest not to try to dictate editorial policy.

Summing up, the advertiser makes it possible to sell the paper for a few cents a piece. An independent, outspoken press provides better advertising than does a subservient one. No paper, therefore, need be dictated to by its advertisers, even though the advertiser does provide the major part of a paper's revenue.

Pavement markings help to protect motorists. The Ontario Safety League points out they would give far more protection, if all drivers observed them, all the time. Perhaps taxpayers would respect white lines more if they realized what they cost. It costs upwards of \$400.00 a mile each year to keep a solid white line on the road.

Crown lands are the principal source of pulpwood in Canada.

NEWS FOR THE BUSY FARMER

Furrow and Fallow
By Fairbairn

Hopes for producer agreement on the proposed overall milk marketing plan for this province were dealt a severe blow at the semi-annual meeting of the Ontario Concentrated Milk Producers last week. After wasting most of the day on the regulation trivia of annual meetings, including a 2-hour luncheon, producers attempted to get to grips with the marketing plan, but it eluded their grasp. There was one bright spot in the morning session when Don Goodwillie of the Canadian Department of Agriculture gave producers a realistic picture of the dairy situation and answered some pertinent questions. Ottawa's dairy expert foresees surplus butter production this year adding another 30,000,000 pounds to the government kitty. That is not a bright spot for milk producers to contemplate, but at least Mr. Goodwillie was frank.

When the meeting finally got round to its major consideration—the milk marketing plan—the afternoon was more than half gone, and before the discussion concluded, more than half of the producers were gone. From this observer's vantage point, one of two conclusions can be drawn: either there was a skillfully organized drawing of red herrings across the path of the discussion, or a complete lack of understanding of what the proposed plan is.

If one accepts the first possibility, then an anonymous letter which many concentrated producers received earlier in the week might be part of the plan. It purported to be written by some producers who might lose their jobs if their identity were known and, in effect, it opposed the plan. Some of the provincial directors were highly annoyed by this letter because it could be interpreted as pointing the finger at them. Others were not annoyed.

Most of the resolutions from local concentrated associations concerning the marketing plan dealt with the mechanics of its operation rather than the principles. There is apparently a great deal of confusion in producers' minds about the whole idea. As we understand the proposals, they would establish certain general principles that would govern the operation of any overall milk marketing plan, but the actual operation—day by day—might be changed frequently by regulations approved by the board. The mechanics or the means of instituting these general principles must be determined by the marketing

board after it assumes control of the marketing of milk in Ontario. Furthermore, it is impossible to pre-determine the exact regulations the board should pass in order to achieve these principles. The members of the board will have to deal with that when—and if—they are given the authority.

During his few remarks at the noon luncheon, Ontario's Minister of Agriculture, Honourable Wm. A. Stewart reiterated his previous belief in the necessity for an overall milk marketing plan, but emphasized that the proposed plan was a producer one, not the government's. He also said, at one point, "If a marketing plan is approved." Whether his choice of and emphasis on the word was intentional or not we do not know.

The concentrated producers finally delivered the death blow to hopes for agreement when they tabled a resolution calling for support of the proposed plan. What the next step will be is anybody's guess, but ours is that we will hear nothing from the provisional marketing board now. There are also rumours of considerable dissension in the ranks of fluid producers, particularly in the Toronto association, so the future of the Ontario milk marketing plan is anything but rosy.

WEED OF THE
WEEK SERIES
LEAFY SPURGE STILL
DIFFICULT TO CONTROL

Leafy Spurge has been classed as Public Enemy No. 1 in the war on weeds. Sometimes called Betcher weed or Fatours grass, this persistent perennial is listed as Prohibited Noxious in the Canada Seeds Act. This makes it illegal for even one leafy spurge seed to be present in any seed offered for sale in Canada. The seriousness of leafy spurge is further emphasized by the fact that it has been described as the weed that has taken possession of farms and driven their owners to the poorhouse. According to the Field Crops Branch, Ontario Department of Agriculture, this statement is no exaggeration. Leafy spurge is such a menace to farming in parts of Canada that municipalities may take over, and operate farms infested with it.

Leafy spurge is a long-lived, deep-rooted perennial which grows both from seeds and underground rootstocks. The root system may extend to a depth of two feet or more. The stems grow from one to three feet high and excrete a sticky, milky sap when broken. The flowers, which

bloom from June to September, are greenish-yellow and borne in flat-topped clusters with a ring of leaflike bracts at the base of each cluster. Leafy spurge is poisonous to most livestock, but sheep can eat it without harm. Indeed, sheep will graze it down so short that it is often eradicated.

The deep, extensive root system makes leafy spurge very hard to kill, either by cultivation or chemicals. Small patches should be treated with chemicals because cultivation may drag roots to other parts of the field, thus spreading the infestation, since a half-inch section of root will produce a new plant. Patches may be treated with soil sterilants such as Monuron, Simazine, Atrazine, Trichlorobenzoic Acid products or Sodium Chlorate mixtures. No vegetation will grow on areas treated with these chemicals for a period of time varying from a few months to several years, depending on the chemical, rate of application and soil type. The use of these chemicals is generally limited by cost to the eradication of small patches of leafy spurge. When using chemicals, always follow the directions on the container very carefully and, for further information, refer to Ontario Department of Agriculture Publication No. 75, "Guide to Chemical Weed Control," available from your Agricultural Representative.

Large infestations of leafy spurge are costly to eradicate but may be kept under control with commercial 2,4-D or 2,4,5-T mixtures called brush-killers. These will not cause soil sterility, but will kill all plants except grasses, so can be used only in all-grass hay or pasture fields. Two treatments should be made each year, one in late June and another in late August or early September.

Eradication of large infestations by cultivation usually requires continuous cultivation for at least two growing seasons. Any patches which still survive should be killed with soil sterilant chemicals as outlined above.

THE PRICE OF MILK

How does the price of milk relate to the weekly food basket cost and to the family incomes during the past 20 years or more? In 1939, personal, annual, disposable income was \$339—the weekly food basket for a family of four was \$10 and a quart of milk, 11 cents; in 1960, annual income was \$1,408, the food basket \$25 and the quart of milk 23½ cents. This means that in the past two decades, income has more than quadrupled, food cost has risen two and a half times and the price of a quart of milk has a little more than doubled.

If the price of the quart of milk from 1939 to 1960 had followed the same trend as income, which has quadrupled, it would now be 44 cents a quart. If it had risen at the same rate as the weekly food basket, which is now two and a half times higher than in 1939, it would be 27½ cents a quart.

It is a common experience that any country showing increased income spends more on such commodities as meat. In Canada, since 1939, income has gone up and diet has changed considerably. Canadians are eating less cereals, potatoes and dairy products and more fruit, vegetables, eggs, poultry and meat. For instance, per capita consumption of beef has risen from 53 pounds in 1939 to 69 pounds in 1960.

It is interesting to compare the milk price situation in relation to the price of other food commodities, such as beef. In 1939, one hour's salary of the worker in a manufacturing industry could buy 4 quarts of milk and 2 pounds of beef. In the following years, one hour's salary could constantly supply more milk than beef. In 1961, it could buy 8 quarts of milk and 2½ pounds of beef. In other words, beef price has proportionately increased more than that of milk.

We sometimes hear consumers complaining about the price of milk. Of course, for a big family with a low income, milk becomes an important item. It means buying three, four or even five quarts every day. Because it is a basic food in our country, the preparation of meals cannot be imagined without it. To the housewife conscious of the health of her family, its importance, especially for children and adolescents, cannot be overlooked.

Statistics show that from 1939 to 1960, personal, annual, disposable income has more than quadrupled (\$339 — \$1,408), while the cost of the food basket has only risen two and a half times (\$10 — \$25), and milk has gone from 11 cents to 23½ cents. This means that while income and prices have been going up, food commodity prices have risen less than consumer prices in general and milk, still less.

Back in 1914, sirloin steak was selling at 25 cents a pound and a quart of milk at 9 cents—a little more than one third. In 1939, a pound of round steak cost 23½ cents and a quart of milk, 11 cents. With the jump (that is the right word for it) in

income, beef round steak, prices increased from 23½ cents in 1939 to 75½ cents in 1960 and to 92 cents in 1961, which means it has nearly quadrupled from 1939 to 1961. If the price of milk had made the same jump, it would now be 44 cents a quart.

Timely Tips

You are a sitting duck when you drive your tractor on public roads, says Hal Wright, farm safety specialist with the Ontario Department of Agriculture. Tractors are slow moving compared to normal traffic, and it is this slow speed that increases the hazard. Take out extra insurance by driving your tractor with courtesy and common sense, and don't forget to signal those turns.

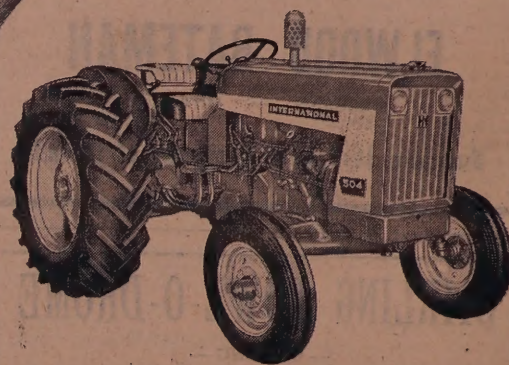

Do we need fat on our beef? Dr. R. H. Ingram of the Meat Laboratory at the Ontario Agricultural College

says that a moderate amount of fat is necessary to preserve and protect the meat while it ages, as well as adding to the flavour.

A balanced ration supplying the necessary vitamins, minerals, protein and energy is an important step toward bigger litters. The ration fed to sows affects the number, strength and weight of pigs farrowed, say swine researchers at the Ontario Agricultural College.

Watch egg quality in the summer months. Research at the Ontario Agricultural College's Poultry Department shows that there are several factors affecting egg quality during the hot months. The greatest loss in egg quality occurs in the first 48 hours, this means that eggs must be cooled immediately after gathering and held in a cool room (50 to 55 degs. F.).

Do You Remember?

TWENTY-FIVE YEARS AGO

ISSUE OF SEPT. 23rd, 1937

Mayor R. D. Arnott, Belleville, Conservative candidate in West Hastings, addressed a large meeting in the Community Hall here on Thursday night.

Mr. and Mrs. R. B. Duffin were honoured by friends on Wednesday evening on the occasion of their twenty-fourth wedding anniversary. G. L. Clute read an address and M. Hick made the presentation of a silver plate.

Local and Personal

Mr. and Mrs. Arnold McCutcheon returned to their home in Toronto on Tuesday after spending their vacation with the former's mother, Mrs. Mary McCutcheon.

Mr. and Mrs. C. E. Macklin left on Sunday on a motor trip to Washington, D.C., Atlantic City and other points.

Misses M. Osborne and G. Conley, R.N., spent last week camping at Oak Lake.

Betty and Bob Hatton, Toronto, spent the week-end visiting friends in town.

Married

Shaw-Thrasher — At the residence of Mr. and Mrs. Roy Thrasher, Mount Pleasant, on September 18th, 1937, Edna Emma Thrasher, to Milton T. Shaw, son of Mr. and Mrs. Wm. Shaw, Ivanhoe.

Springbrook Local Ont. Farmers' Union

The September meeting of Local 171 of the Ontario Farmers' Union was held at the home of Mr. and Mrs. Ted Wilson, Bonarlaw.

Murney Bateman was chairman and opened the meeting with the singing of the Queen. A letter from head office was read thanking the local for a donation of fifty dollars. They also asked if the local could obtain some advertisements for the convention handbook.

Jeanne Williams reported that the County Annual Meeting will be held at Roslin on September 27th.

Considerable time was spent discussing milk marketing.

It was decided to hold the next meeting at the hall in Springbrook. There will be a pot luck supper. A committee of Edna Bateman, Elda Bateman and Shirley Reid was appointed to arrange the supper. Entertainment will be arranged.

George Williams moved a vote of thanks to the Wilsons for the use of their home. The ladies served lunch and a social time was spent.

St. Mark's W.A. Bonarlaw

The September meeting of St. Mark's W.A., Bonarlaw, was held at Mrs. Woodbeck's cottage, Oak Lake, in the form of a pot luck dinner. Everyone enjoyed a very delicious meal.

At 2 o'clock the President, Mrs. W. J. Barlow, opened the meeting. The hymn, "Jesus Master Whom I Serve," was sung. Rev. Fleming led in prayer and the Litany. All repeated the Member's Prayer. Mrs. Barlow welcomed all present and thanked Mrs. Woodbeck for having the meeting.

Mrs. Fleming read the the Bible reading taken from St. John.

Roll call was answered by 10 members giving the flower and jewel of their birthday month. Minutes of the last meeting were read and approved. Treasurer, Mrs. Neal, gave her report.

Mrs. M. Tanner reported on choir gowns and showed one completed. A letter was received from Springbrook W.A. inviting St. Mark's to their bazaar in September. Mr. Fleming reported the furnace was being installed in the church. Mr. Fleming closed the meeting with prayer.

Some readings were given and a contest conducted. The hostess served a cup of tea and cookies and everyone left after a very enjoyable day.

Mount Pleasant

Mrs. Marguerite McMullen was a supper guest Sunday at the home of Mr. and Mrs. Jay Eaton, of Belleville, and attended the evening anniversary service at Sidney Baptist Church.

On Sunday morning the annual Rally Day Service was held at the Church. Robert Merrick, Superintendent of the Sunday School presided. Miss Carol Sharpe officiated at

the console of the organ. The Intermediate girls occupied the choir loft and Miss Jean Sharpe sang "Have Thine Own Way Lord." The Bible lessons were read by Calvin Sharp and Fred McAdam. Miss Donna Knight gave the prayer and Douglas Potts dedicated the offering. Kenneth McConnell read the special story. The pastor the Rev. W. G. Fletcher, B.A., gave the message on the theme "Hands that Heal in the Name of Christ."

Miss Bessie McMullen, Belleville, spent a few days with Mr. and Mrs. Frank Hutchinson.

Mr. George Weaver will observe his 82nd birthday anniversary on Friday, September 28th. Friends extend felicitations.

Kalvin Sharp, son of Mr. and Mrs. Mac Sharp, won the first award for his forestry display in the Junior Section at Stirling Fair.

Misses Carol Sharpe and Mary Ellen David, Messrs. Jim Johnston, and Howard Jeffs, Grade 12 students, travelled by chartered bus on Tuesday, September 25th to Stratford where they attended the afternoon matinee of the Shakespearean Festival. Mr. E. C. Hay-Ellis accompanied the group of students.

Raeburn Scott, son of Mr. and Mrs. Clarence Scott, has returned to Queen's University, Kingston, to begin his third term.

Mrs. N. E. Fegleton, Stirling, visited Mr. and Mrs. James Hoard and family on Sunday evening.

Mr. and Mrs. John Holmes spent the week-end with their son Kenneth and Mrs. Holmes, Pembroke.

Miss Bessie McMullen, Belleville, spent Sunday and Monday with Mr. and Mrs. Mac Sharp and family.

Twenty-five people from this burg attended the chicken barbecue last Tuesday evening at the L.O.O.F. Hall.

Mr. and Mrs. G. B. Bedford and Mrs. Hugh Morton, Stirling, spent Sunday evening with Mr. and Mrs. Leonard Sharpe.

Mr. and Mrs. Frank Hutchinson attended the anniversary service Sunday morning at Moira United Church and were dinner guests of Mr. and Mrs. Arthur Brough at Thomasburg.

Mr. Hubert Conley, Toronto, spent a day this week with Mr. and Mrs. Frank Hutchinson.

The British North American Act of 1867, and its amendments, makes each of Canada's provinces sovereign in its own sphere.

Carmel

Mr. and Mrs. Robin Martin, Toronto, spent the week-end with Mr. and Mrs. Archie Bailey.

Mrs. Charlie Smith, Alkoms, spent Monday with her mother, Mrs. Milton Hagerman.

Mr. and Mrs. Charles Barginson and Mrs. Jan Simpson, Havelock, visited the latter's daughter, Mrs. Everett Grills on Sunday.

Mr. Sanford Wilson and Margaret, Peterborough, were Sunday visitors of Mrs. Wm. Morris.

Mr. and Mrs. Gilbert Cotton, of Tweed, were Sunday visitors of Mr. and Mrs. Arthur Pyear.

Mr. and Mrs. George Sheldon and Charles, Toronto, spent the week-end with her parents, Mr. and Mrs. Charlie Bailey.

Mr. and Mrs. Reg. Parks, of Peterborough, spent last week with Mr. and Mrs. Harry Brown.

Mr. and Mrs. Jim Hubel, of Scarborough, were week-end guests of his grandmother, Mrs. N. Ferguson.

Mrs. Vernon Harry was hostess for the monthly meeting of the U.C. Women on Thursday afternoon.

Mr. Ron White returned home and to his work at Trenton Airport after spending two months on duty in France.

Bold, brilliant engineering of the '63 Chevrolet brings you such under-the-skin improvements as self-adjusting brakes, impact-resisting safety door latches, battery-saving Delcotron generator, extended-life exhaust system, 6 months or 6,000 mile lubrication interval and

A GENERAL MOTORS VALUE

Air-Washed rocker panels and front fender liners to reduce corrosion. But hold on, there's more. There's a brand new smooth-as-silk standard Six, and livelier-than-ever V8 engines in a choice of 13 models, plus a list of options and convenience equipment as long as your arm.

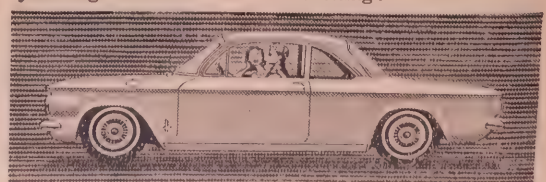

It's going to be a great year for Chevrolet — your year to go Chevrolet '63 — it's exciting!

Chevy II Nova 400 Sedan

Chevy II made a name for itself in just one year. And this year it's even better, for the '63 Chevy II combines the easy-care features of the big Chevrolet plus its own advantages — park-anywhere size, full-family room, pep and economy and a full complement of optional power assists. See the new Chevy II — it's exciting.

Whispering tires optional at extra cost.

Corvair Monza Club Coupe

Bright new accents, colors and interiors highlight Corvair's distinctive-as-ever styling for '63. Self-adjusting brakes, improved front suspension and extended-life exhaust system add to Corvair's already impressive list of automotive achievements. For the sheer fun of it, test drive a '63 Corvair. It's exciting!
